Dear Mr. Neubecker,

I would like to express my gratitude to you for your long-lasting support of the Chicago Electronic and Financial Crimes Task Force.

Since May 2002, the Chicago Electronic and Financial Crimes Task Force meetings have brought entities together to discuss common needs, best practices and security goals relating to cyber crime and critical infrastructure protection. Your willingness to speak at the last-minute and ability to offer great expertise and insight into advances in computer forensic technology, investigation and law to our members contributed greatly to the overall success of the April 12, 2007 quarterly meeting.

The United States Secret Service is committed to combating cyber crime and to the protection of this nation's critical financial infrastructure. These meetings benefit all of us – federal, state and local law enforcement, the private sector and academia, by pooling our knowledge, resources and experiences. Together, we can work in a safer and more effective manner to achieve our missions.

We value our partnership and look forward to your continuing participation with the Chicago Electronic and Financial Crimes Task Force. If we can be of assistance in the future, please do not hesitate to contact my office or me at REDACTED.

Sincerely,

REDACTED
